

Upcoming CPD events 2024

March

13 – 14 **Elevate your impact (formerly Women in Business)** **Virtual Conference | Trans-Tasman**

This two-day program and optional masterclass will cover a wide range of topics that focus on personal growth, effectiveness, business acumen and data technology proficiency. Learn to apply the most sought-after behavioural skills, digital technology and business enabler skills.

19 **Sustainability** **Virtual Seminar | Trans-Tasman**

The Sustainability seminar aims to support participants as we shift from discussions about climate risk and opportunities to making it business as usual.

20 – 21 **Climate Disclosures** **Virtual Seminar | Australia**

This seminar will assist participants to understand the complex landscape of climate disclosures, and what disclosures look like. This includes climate risks, scope of emissions as well as transition planning.

May

15 **Audit** **Virtual Conference | Trans-Tasman**

There are important changes coming for audit and assurance professionals, Audit conference will prepare participants for a sustainable and successful future, providing a boost to their knowledge in audit, business, technology and management.

16 **Accounting** **Virtual Conference | Trans-Tasman**

Industry leaders will present the key changes happening in the technical and legal areas of accounting, while subject matter experts in technology, leadership and management continue delegates' development as business leaders.

June

12

Not-for-profit

Virtual Seminar | Trans-Tasman

This seminar will bring together key operatives within the NFP sector to help participants grow their skills and knowledge, inspire innovation, discuss how to build more sustainable organisations and achieve better results for themselves, their teams, and organisations.

July

23–24

Rural Sector Accounting

Virtual Seminar | Trans-Tasman

Designed for rural accounting practitioners, this event will deliver expert guidance on working in the current changing environment and present opportunities to discuss what the future of the sector looks like.
