

Set up for success as a mentor

Fact sheet

Mentor Exchange is informal and voluntary

While we provide some structure and support along the way, it's ultimately up to you and the mentee to determine how best to make the relationship work:

- By providing advice, guidance and support to fellow members, your role is to help your mentee develop professionally and personally.
- Your mentee will be responsible for setting meetings throughout the six months.
- You are not expected to help your mentee search for a job.
- By sharing your knowledge and experience, you will be contributing to our culture of effective career planning and continuous learning.

Mentors will earn six CPD hours for their participation.

For more information and to apply, visit our dedicated Mentor page [here](#).
