

# Not-for-Profit Board Experience Program

## Are You Ready for a New Experience?

As a young CA at the start of your professional career, we know you have a wealth of untapped potential. Have you ever thought about giving back, but don't know how to start? We are pleased to invite you to participate in the 2021 NFP Board Experience Program. This Program is an exciting opportunity to sit as an observer on a NFP Board and work one-on-one over several months with a NFP CA Board member.

This Program is for you if you:

- Have a passion for NFPs and aspire to be more involved in giving back to our community;
- Are a fully qualified CA who has achieved full qualification within the last 15 years;
- Want to accelerate your professional networks and advance your career;
- Are enthusiastic, energetic and willing to share your perspective and point of view with NFP Board members; and
- Want to experience the dynamics and decision making involved in running a NFP Board.

## What to Expect From the Program

The NFP Board Experience Program involves three key functions:

- 1 NFP Board observer:** you will be invited to observe NFP Board meetings occurring between February & November 2021. After each meeting you will de-brief the meeting with your mentor, discuss your observations and address any queries you may have. At your last meeting, you will be invited to present to the NFP Board a summary of your experience and to share your insights on their organisation.
- 2 NFP Board mentor:** you may be assigned a CA NFP mentor, who will be a Director on your assigned NFP Board. You will shadow your mentor while they perform their NFP Board duties. Your mentor will be the first point of contact should you have any questions throughout your NFP Board experience.
- 3 Workshops:** you will be given the opportunity to attend a number of workshop events, aimed at challenging your strategic thinking and focusing on governance in the NFP sector.

### CPD Hours:

From 20 hours by attending 5 x 4hr workshops and Board meetings.

### Program Cost:

Participation in the Program will cost \$2,600 incl GST, covering the costs of the workshops and all program events.
