

The Accounting Technician Program

Reward your team members with career development opportunities through an Accounting Technician (AT) Designation enabling them to be more confident and valuable contributors to your business.

Does your finance team have team members with:

No formal accounting qualifications?

How much experience do they have?

5 years or more

- Follow the Experience pathway

Less than 5 years

- Follow the Academic pathway

An accounting qualification?

Enrolled in or have completed an accounting qualification to Diploma level or higher?

Studying in NZ

- Follow the Academic pathway to AT
- Enrol in the NZ Diploma in Business Level 5 or 6 Accounting Strand or approved degree level study

Studied overseas

- Have your qualifications assessed

Upskill on any competency gaps by studying approved academic tertiary courses. For study options refer to the [AT Approved Academic Course List](#) on the website.

For employers, the AT Program is designed to provide:

- Career development opportunities to reward and retain team members and attract new talent.
- Relevant, modern accounting industry knowledge that enables confident and valuable contributors to business.
- Flexible learning to work around business requirements.
- Management of financial accounts to ethical and professional standards.
- Resources to help your team member in their professional development. ATSPE has been redesigned as a professional development plan and can add great value to the AT Program experience.

- Sets a career goal to become an Accounting Technician.
- Keeps your team one step ahead with Continuing Professional Development.
