

CA Foundations

Overview

CA Foundations is a pathway to the CA Program which is open to eligible applicants who require further study in one or more of the CA Program's required prerequisite competency areas. See [CA Program Candidate Admission Policy and Procedure](#) for further details on required prerequisite competency areas.

CA Foundations is a non-award program however its content has been developed to achieve the same required levels of prerequisite knowledge for the CA Program expected of an accredited tertiary course.

Eligible applicants will continue to have the option of obtaining their prerequisite knowledge via existing accredited tertiary courses such as Master of Professional Accounting (MPA) programs and this would be the appropriate option if they prefer or need to study at a formal postgraduate level.

Eligibility and application

To be eligible for the CA Foundations Pathway you must have your qualifications assessed by CA ANZ to determine that your qualification is at least equivalent to an AQF Level 7 AU or NZ bachelor's degree or diploma in business or accounting.

If you have completed a CA ANZ accredited degree, you should apply for provisional membership to determine your eligibility.

If you are in your final year of study or have completed a non-accredited qualification you will be required to apply for a [Standard Qualification Assessment](#).

Once your qualification has been assessed and it has been determined that you hold the appropriate level qualification you will be advised of any competence area gaps and provided access to enrol in CA Foundations to bridge these gaps.

Full unit or exam only option

Eligible applicants have the option of enrolling in the Full Unit or Exam Only option for each CA Foundations unit.

The Full Unit option provides enrollees with access to the unit's online learning portal and the option to sit their final exam date any time up to 12 months from their enrolment date.

Exam Only enrollees will be automatically allocated to sit the next available exam open for registration. This option is designed for enrollees with significant workplace experience who believe they already have the required level of prerequisite knowledge and do not need further tuition before sitting the exam.

The July 2023–December 2024 scheduled CA Foundations exam dates are provided on page 3 to assist eligible applicants plan their individual enrolment and study pathway.

Online delivery and assessment

CA Foundations learning materials are delivered by our external CA Foundations education partner, Deakin University, via their online learning platform, CloudDeakin. The online learning materials are designed for self-paced study around work and other commitments.

The recommended study hours per unit is at least 10 hours per week. Applicants can elect to study as many units as they wish concurrently, according to their other commitments and units can be completed in any order.

To pass each CA Foundations unit, applicants must achieve at least 50% in the final examination. Each final examination is three hours and consists of authentic, applied short answer and extended response questions.

Technology requirements

CA Foundations enrollees must complete the final examination for each unit online using their own laptop or PC via a remote invigilation platform at the date/time scheduled by Deakin University.

Before enrolling in CA Foundations, please refer to [Deakin University's computing requirements](#) to ensure you will be able to access the online learning portal and examination.

Enrolment

Rolling intake is available for all CA Foundations units allowing Full-Unit enrollees to commence their online study anytime and select their preferred exam timing from six exam sessions per calendar year. Exam-only enrollees will be automatically allocated to the Exam Session that is open for registration at the time of their enrolment.

Fees

Fees must be paid in full by credit card at the time of online enrolment.

Fees to 31 December 2023

Australia (\$AUD)

\$1,190 + gst per unit – for full unit

\$595 + gst per exam – for exam only

New Zealand (\$NZD)

\$1,290 + gst per unit – for full unit

\$640 + gst per exam – for exam only

Fees from 1 January 2024

Australia (\$AUD)

\$1,250 + gst per unit – for full unit

\$620 + gst per exam – for exam only

New Zealand (\$NZD)

\$1,350 + gst per unit – for full unit

\$670 + gst per exam – for exam only

Once paid, CA Foundations fees are not refundable. Refer to FAQs on pages 7-10 for further details.

Exam schedule: June 2023 – December 2024

It is up to individuals to refer to the below schedule before enrolling to ensure they will be able to sit their final exam/s on their preferred date/s.

Foundations Unit Descriptions

CAFF1/CAFE1 Accounting Systems and Processes

This introductory financial accounting unit covers basic accounting principles, manual double-entry recording, accounting software use, and preparation of financial statements. Note that CAFE1 is the version for Exam Only.

CAFF2/CAFE2 Financial Accounting and Reporting – Intermediate

The focus of this unit is on understanding the regulatory and conceptual frameworks that underpin accounting for corporate entities. Understanding these frameworks and accounting standards ensures that the logic behind existing accounting rules and possible alternative approaches can be understood, leading to a deeper understanding of what accounting is trying to achieve. Emphasis will be placed on particular accounting standards related to the accounting elements and specific issues pertaining to group financial reports and statement of cash flows. Note that CAFE2 is the version for Exam Only.

CAFF2A/CAFE2A Financial Accounting and Reporting – Advanced

The unit deals with some of the more complex financial accounting areas, including accounting for intangible assets, accounting for leases, accounting for employee benefits, accounting for financial instruments,

foreign currency issues, and earnings per share. In addition to the more technical areas of accounting, accounting theory and accounting for corporate social responsibility are introduced. Note that CAFE2A is the version for Exam Only.

CAFF3/CAFE3 Audit and Assurance

This unit aims to provide a thorough understanding of auditing concepts and professional standards required for the professional Auditing practice. The unit provides a foundation for undertaking a financial statement audit. The unit examines auditing and assurance services with a focus on the financial report

audit, and the regulatory and legal environment is discussed. Students learn about the planning, execution, and reporting phases of the audit process. Note that CAFE3 is the version for Exam Only.

CAFF4AU/CAFE4AU Business Law in Australia

This unit gives students an advanced and comprehensive understanding of business law in Australia. It discusses relevant legal matters, including contract law, tort law, the law of agency, business structures in Australia and consumer protection.

Note that CAFE4AU is the version for Exam Only.

CAFF4NZ/CAFE4NZ Business Law in New Zealand

This unit provides students with a comprehensive understanding of the New Zealand legal system and the legal environment in which businesses operate.

It discusses relevant legal matters, including contract law, tort law, the law of agency, business structures in New Zealand and consumer protection. Note that CAFE4NZ is the version for Exam Only.

CAFF5/CAFE5 Economics

In this unit, students will explore a total of 10 topics. Topic 1 provides key concepts and definitions related to economics. Topics 2 to 5 focus on microeconomics. Students will learn about demand, supply and market equilibrium, market failure and government intervention and various forms of competition such as monopoly, monopolistic competition, perfect competition, and oligopoly. Topics 6 to 10 explore macroeconomics. Students will study economics measurement, the aggregate demand-aggregate supply framework, fiscal policy and monetary policy, international trade and economic and financial crisis, exchange rates and balance of payment accounts money and capital markets. These topics will be facilitated with easy-to-understand examples and interactive slides, and students will also have an opportunity, within each topic, to practice short

answer as well as multiple-choice questions. The unit will equip students with the most up-to-date knowledge in economics and provide useful tools and frameworks to make well informed decisions in their individual lives and business activities. Note that CAFE5 is the version for Exam Only.

CAFF68/CAFE68 Finance and Quantitative Methods

This unit comprises two parts. Part A focuses on how business organisations make financial decisions, and Part B focuses on how quantitative techniques can help us make finance and business-related decisions. Part A covers business investment, financing and dividend decisions, theories of the capital market, share valuation, capital budgeting and risk management. This will help students to learn about financial concepts, available analytical tools, and various finance issues that provide the necessary foundation to understand and solve many corporate finance problems. Part B is more technical and will cover basic statistics and probability concepts, probability distributions, parameter estimation and hypotheses test, regression analysis, time series analysis, including trend models and autoregressive models. Topics in Part B will help students understand the relationship between different financial variables, financial asset returns, aggregate market movements, and/or different market performances. Note that CAFE68 is the version for Exam Only.

CAFF7/CAFE7 Management Accounting

Management accounting is the area of accounting primarily concerned with generating financial and non-financial information for use by managers in their decision-making roles within organisations. It

helps satisfy managers' information needs for setting objectives, managing resources, and adding value to key stakeholders. In this unit, students will learn different techniques and practices that will help them to identify, measure and manage costs for planning and control purposes. Students will also learn how to

construct a budget, different budgeting techniques and their behavioural consequences. In the final part of this unit, students will explore financial and non-financial performance measurement systems. Note that CAFE7 is the version for Exam Only.

CAFF9AU/CAFE9AU Taxation in Australia

Tax is a concept that impacts almost everyone in Australia. Both residents of Australia and foreign residents have to determine what needs to be included in their income, what deductions they can claim, and all of this leads to how much tax they need to pay each year. In this subject, we will explore the key concepts regarding tax here in Australia - including the specific requirements and forms of income, how the capital gains tax system works, and what deductions taxpayers may be eligible to claim. At the end of this unit, students will have a strong understanding of the critical steps and issues and apply them to different scenarios. Note that CAFE9AU is the version for Exam Only.

CAFF9NZ/CAFE9NZ Taxation in New Zealand Tax is a concept that impacts almost everyone

in New Zealand. Whether you are a resident or a foreign resident, run a business, are employed, or have property here in New Zealand, it is important to understand our tax obligations. The tax base in New Zealand comprises many different taxes. Some are direct, such as income tax. Some are indirect, such as goods and services tax. When we consider a particular type of tax, we will need to drill down to more specific issues, such as what types of receipts we need to report as income? What expenses can we claim to reduce our tax? If we win the lottery, do we need to pay tax on those winnings? If we find \$1000 in a briefcase at the train station, do we need to pay tax on it? These are the types of questions that we'll explore in this unit. We'll explore the key concepts, essential tax calculations, and at the end of this unit, students will be much more informed on how to approach their tax obligations. Note that CAFE9NZ is the version for Exam Only.

CAFF10/CAFE10 Information and Communication Technology

The Information and Communications Technology (ICT) unit introduces students to key uses of ICT and its relation to accounting practice and organisational business activities in general. Students will enhance their understanding of the effect of documentation techniques and data analytics on organisational activities. It develops a greater awareness of privacy and security related threats to accounting information systems and the use of controls to overcome the risks associated with such threats. This unit familiarises students with issues around data collection, storage, and communication while exploring emerging technologies such as big data, blockchain technologies, XBRL, robotic process automation, and their impact on the accounting practice. An important takeaway for students from this unit is the understanding that information technology is becoming increasingly ubiquitous in accounting practice. Note that CAFE10 is the version for Exam Only.

CAFF11/CAFE11 Business Acumen

This unit covers the local and global organisational environment within which a business operates and also covers the features related to business strategy and management. The basic principles of governance, risk management, organisational structure and culture are also addressed. The intent is to provide an understanding of the influences on organisational value-creation. Note that CAFE11 is the version for Exam Only.

CA Foundations Frequently Asked Questions

How can I find out if I am eligible to study CA Foundations?

To be eligible to study CA Foundations units you must have your qualifications assessed by Chartered Accountants ANZ to determine that your qualification is at least equivalent to an AQF Level 7 AU or NZ bachelors degree or accounting diploma. This can be done either as part of your application for Provisional Membership or via a [Standard Assessment of Academic Qualifications](#) if you have an unaccredited or overseas degree, or are in your last year of study.

How long will it take for my academic qualifications to be assessed?

You should allow at least four weeks for your Standard Assessment or Provisional Membership application to be assessed. This timeframe can vary depending on current workloads.

Can I undertake CA Foundations as a Full CA Member?

Yes – CA Foundations units are available to Full CA Members. Please contact us at foundations@charteredaccountantsanz.com so that we can update your record, allowing you to enrol.

Can I study CA Foundations on a student visa?

As a non-award program, CA ANZ does not impose any restrictions on visa holders undertaking CA Foundations study. However it is important to note that CA ANZ cannot register candidates studying or seeking to study the CA Program on an Australian student visa, because CA ANZ and the CA Program are not registered on the Australian Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS) due to the online nature of the CA Program. Further information on CA Program entry requirements is available [here](#).

Ultimately it is your responsibility as a candidate or potential candidate of CA ANZ's CA Program to ensure that you are able to meet the requirements to enrol in the CA Program or any pathway programs

leading to the CA Program and satisfy any visa requirements or restrictions.

How do I enrol in CA Foundations?

If you are assessed as eligible to undertake CA Foundations, you will be given access to the online enrolment portal via [MyCA](#) > My Capability Program. All CA Foundations enrolments must be lodged online with full fee payment within 24hrs to be confirmed. A step-by-step enrolment guide including screenshots is available from our website and via the link below: [CA Foundations Online Enrolment Guide](#).

Can I withdraw or change my enrolment after it has been confirmed?

You can request to withdraw your confirmed enrolment, however, we are unable to offer any changes, transfers or refunds due to the rolling intake/start anytime format.

What can I do if I am having difficulties in enrolling online?

If you are experiencing any difficulties in enrolling online, please contact us via email at foundations@charteredaccountantsanz.com. Please include any relevant screenshots in your email so that we can investigate.

What are the fees for CA Foundations enrolment?

Please see page 2 for CA Foundations enrolment fees.

What is included in the CA Foundations enrolment fees?

A Full Unit enrolment provides enrolees with online learning materials and the option to sit their final exam within 12 months of their enrolment date. Additional exam attempts can be purchased at Exam Only rate if required during the 12 months.

Exam Only enrolees will be allocated to sit the next available exam open for registration and will not have access to online learning materials. This option is designed for enrolees with significant workplace

experience who do not need to access learning materials before sitting the exam.

Full Unit or Exam Only

	Full Unit	Exam Only
Online learning materials	✓	✗
Discussion boards	✓	✗
Pre-exam workshop	✓	✗
One exam attempt	✓	✓

Can I pay for CA Foundations units with employer tokens?

No – CA Foundations enrolments must be paid in full by credit card at the time of enrolment. Check your organisation's policies to see if they can reimburse you or if you can pay via company credit card.

Are CA Foundations fees refundable?

Due to administrative, third party and other costs incurred by CA ANZ no transfers, deferrals or refunds are applicable to CA Foundations enrolment fees.

How many CA Foundations units can I enrol in simultaneously?

You can enrol in as many units simultaneously as you wish, however, please consider your other work, life, and study commitments. As CA Foundations enrolments are always open you could consider enrolling in one or two units initially, then adding more units as required.

Should I enrol in Full Unit or Exam Only?

The Exam Only option is designed for enrollees with significant workplace experience who already have the required level of knowledge to pass the exam without further study. We recommend you review the CA Foundations Unit Guides available to download from our [website](#) to check your current knowledge of the subject matter and if in doubt we suggest you enrol in the full unit. Full unit enrolment gives you access to online learning materials and includes one attempt at the final exam.

Which unit/s should I study first?

You can enrol in CA Foundations units in any order. If you are looking to become a Provisional Member as quickly as possible via our [flexible entry options](#) you should begin your studies with CAFF1/CAFE1 Accounting Systems and Processes and CAFF11/CAFE11 Business Acumen as these are both required competency areas for the first core subject of the CA Program.

You can refer to the CA Foundations Pathway Map (page 11) to see how CA Foundations units map as pre-requisites for the CA Program. This may help you to plan your studies.

How long does each unit take to complete?

Each CA Foundations Full Unit includes 150 learning hours, except for CAFF68 Finance and Quantitative Methods which includes 250 learning hours. Your study time may vary depending on your level of knowledge and experience in each subject.

How do I access the online learning materials?

CA Foundations online learning materials are delivered by our external CA Foundations education partner, Deakin University, via their online learning platform, CloudDeakin. To login to CloudDeakin, please use your CA ANZ MyCA username and password at charteredaccountantsanz.deakin.edu.au. We recommend you bookmark this page as it looks similar to the login page for MyCA. Remember that online learning materials are only available to Full Unit enrollees.

As a Full Unit enrollee, when will I get access to the online learning materials?

Once your enrollment has been completed online and the full fee has been paid, your details will be uploaded to CloudDeakin by Deakin University. They will send you a welcome email for each unit within two business days that contains login instructions and useful information. Remember to check your junk/spam folder if you have not received your welcome email within two business days.

Remember that you must complete the exam within your 12 month enrolment as extensions are not available for any reason.

As a Full Unit enrollee, can I select and reschedule my preferred exam date?

Yes – as a Full Unit enrollee, you have 12 months from your enrolment date to register for and sit your final exam. During this 12 month period you will be able to schedule and reschedule your exam date according to the exam registration open and close dates shown in the Exam Schedule on page 3. Registration for exams is completed via CloudDeakin.

As an Exam Only enrollee, how can I ensure my preferred exam date?

If you are an Exam Only enrollee, you will be automatically allocated to the exam date for the current open exam session. It is important that you submit your enrolment between your preferred exam session registration open and close dates, as shown in the Exam Schedule on page 3.

When are CA Foundations exams held?

CA Foundations exams are held six times per year in February, April, June, August, October and December. Please refer to the Exam Schedule on page 3 for specific dates.

What is the exam format?

Each CA Foundations exam is made up of authentic, applied short answer and extended response questions. The exam is open book and delivered online on CloudDeakin via a remote invigilation platform at the date/time scheduled by Deakin University.

Are there any live online tutorials or workshops that I need to attend?

Enrollees are not required to attend any face-to-face or online tutorials or workshops. Full Unit enrollees can choose to attend an optional online pre-exam workshop, or access a recording of this prior to their exam. Full Unit enrollees can also use the CloudDeakin discussion boards at any time and have email contact with their Unit Chair if required.

Can I sit my exam outside of business hours?

Yes – you can commence your CA Foundations exam between 9:00am and 7:00pm Melbourne time on the exam day. This is to ensure that sufficient IT support is available in case of technical issues. Exams commenced outside of these hours will not be marked.

Can I sit my exam while I am overseas?

Yes – you can sit your exam from anywhere in the world as long as you have sufficient internet access, you commence your exam at the right time, you follow all the usual exam rules, and you are using a computer that fulfils [Deakin University's computing requirements](#). We recommend that you use the Try-It-Out exam function on CloudDeakin to test your setup in the days prior to your exam so that you have time to troubleshoot any issues. If you choose to sit your exam whilst overseas the onus is on you to ensure you have the correct setup and that you contact us immediately if you experience any issues during your exam.

What can I do if I cannot sit the exam I have registered for?

If for any reason you cannot sit the exam you have registered for, please contact us at foundations@charteredaccountantsanz.com as soon as possible. Please note that CA ANZ will only consider requests to defer to a later exam session without fee in extenuating, unforeseen circumstances that are supported by medical or other documentation. If this does not apply to your situation, you have the option to enrol in a later exam session and pay the relevant fee.

How are the CA Foundations units assessed?

To pass each CA Foundations unit, applicants must achieve at least 50% in the final examination. Each final examination is three hours and consists of authentic, applied short answer and extended response questions.

What if I don't pass my final exam?

Should you be unsuccessful in a CA Foundations final exam, you have the option to re-enrol in either Full Unit or Exam Only and pay the relevant fee. When re-enrolling you have the option to change

from Full Unit to Exam Only or vice versa. If you are a Full Unit enrollee, you will retain access to the online learning materials until 12 months after your initial enrolment so you may choose to re-enrol in Exam Only if you still have access to the online learning materials up to your chosen Exam Only resit.

Please refer to the CA Foundations Enrolment Terms and Conditions, available to download from the bottom of this [webpage](#) for information on your expected academic progress to be able to enrol in further CA Foundations units

Will I receive any certification?

CA Foundations is a non-award program designed to assist enrollees to meet the CA Program entry requirements, therefore no formal certification is issued. Results for each Full Unit or Exam Only are released online only with the option for students to download or print.

Where can I get a summary of all my CA Foundations results?

You can now view and print a summary of your results for all CA Foundations units you have undertaken to date via [MyCA](#) > My Capability Program > Programs & Subjects > My Results.

Where can I find the CA Foundations Enrolment Terms and Conditions?

You can find the CA Foundations Enrolment Terms and Conditions available to download from the bottom of our CA Foundations webpage [here](#).

Where can I go for further assistance?

Further assistance and information about CA Foundations is available via:

[CA Foundations web page](#)
